1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

None were identified

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:

- amendments to existing comprehensive plans
- adoption of a joint comprehensive plan
- other measures (amend zoning ordinances, add environmental regulations, etc.)

Note: If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

If "other measures" was checked, describe these measures:

3. Summarize the process that will be used to resolve disputes when a county disagrees with the proposed land use classification(s) for areas to be annexed into a city. If the conflict resolution process will vary for different cities in the county, summarize each process.

Thomas County and its municipal governments have jointly adopted a land dispute resolution to address land use disputes arising from annexation proposals. The dispute resolution provides for inter-jurisdictional notification, mediation, and a forum for a resolution and land use conflicts.

4. What policies, procedures and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances?

Thomas County and the City of Thomasville have a Memorandum of Understanding that applies to water and sewer services in the unincorporated areas of Thomas County.

Thomas County Board of Commissioners offered to set up urban service areas with any other interested municipalities.

MEMORANDUM OF UNDERSTANDING

This memorandum entered into this 21st day of October, 2008 by and between Thomas County Georgia and the City of Thomasville.

Whereas, the State of Georgia requires that each County in the State enter into an agreement with the various Cities located within its boundaries for delivery of various services which is know as a Service Delivery Strategy;

Whereas, Water and Sewer are among the services required to be addressed in the Service Delivery Strategy;

Whereas, Thomas County does not at this time have either a water or sewer system but has implemented planning and zoning procedures which have provisions for densities which require both water and sewer;

Whereas, Thomas County prefers that the City of Thomasville provide both water and sewer if the City is willing to do so but wishes to maintain it flexibility in the event that the City is not willing or able to provide the services:

Now therefore the parties agree as follows:

1. The County agrees as part of its planning and zoning procedures to require developers to prepare as a part of their final plat a plan for water and sewer.

2. The County agrees as a part of its planning and zoning procedures to require developers to contact the city and discuss the possibility of the city providing the required services.

3. If the city is unable to provide the services within a reasonable period of time or does not wish to provide the services for the approved project, then the county will either explore other delivery strategies or require the developer to explore other delivery strategies.

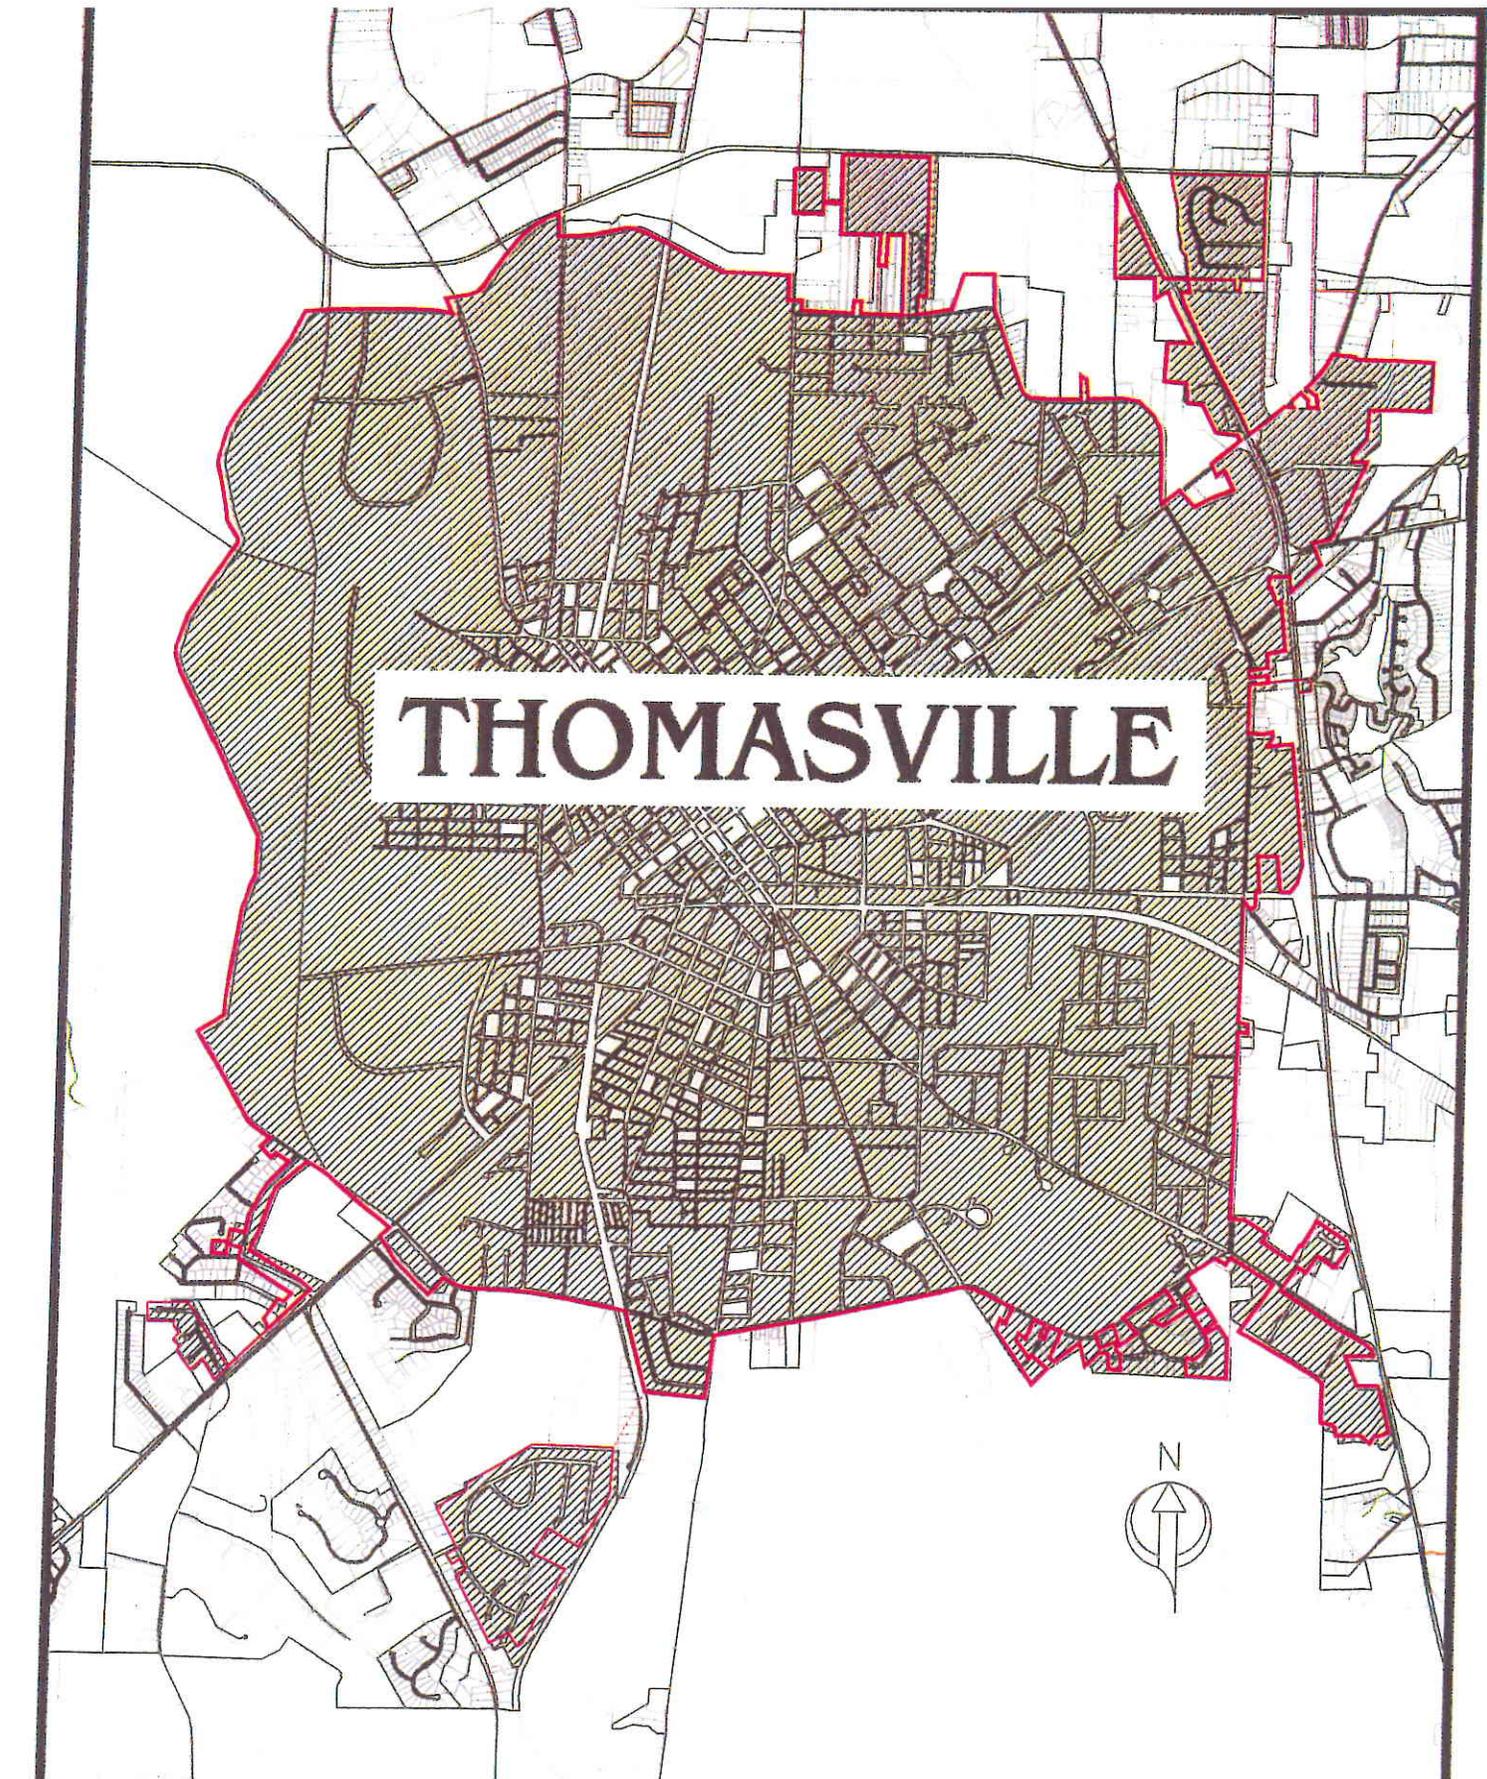

4. The County reserves the right to approve other service providers or means when the city is unable or unwilling to provide water and sewer service.
