INDEPENDENT AUDITOR'S REPORT

Honorable Chairman and Members
of the Board of Commissioners
Thomas County, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Thomas County, Georgia as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Thomas County, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Thomas County Department of Public Health. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it is related to the amounts included for the Thomas County Department of Public Health, is based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of the other auditors provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Thomas County, Georgia, as of December 31, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 29, 2011, on our consideration of Thomas County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 14 and 51 and 52, schedule of funding progress and the schedule of employer contributions on page 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Thomas County, Georgia's financial statements as a whole. The combining and individual major and nonmajor fund financial statements, and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining, individual major and nonmajor fund financial statements, schedules listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of Thomas County Georgia (the County) annual financial report, the County's management is pleased to provide this narrative discussion and analysis of the financial activities of the County for the calendar year ended December 31, 2010. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

Financial Highlights

- The County's assets exceeded its liabilities by \$81,555,083 (net assets) for the calendar year reported.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt, of \$64,229,769 include property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net assets of \$5,940,217 are restricted by constraints imposed from outside the County such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net assets of \$11,385,097 represent the portion available to maintain the County's continuing obligations to citizens and creditors.
- The County's governmental funds reported total ending fund balance of \$16,320,075 this year. This compares to the prior year ending fund balance of \$10,751,066 showing an increase of \$5,569,009 during the current year. Unreserved fund balance of \$9,580,995 at December 31, 2010 shows a \$2,396,103 increase from the prior year. This increase is a positive financial indicator.
- At the end of the current calendar year, unreserved fund balance for the general fund was \$6,916,925 or 36.4% of total general fund expenditures. This amount is an increase of \$2,396,103, which demonstrates the efforts of both the County administration and the County Board of Commissioners in maintaining a strong financial position for the County.
- Overall, the County continues to maintain their financial position, in spite of a somewhat depressed economy.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the County's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The County also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Assets*. This is the government-wide statement of position presenting information that includes all of the County's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of County infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the County's net assets changed during the current calendar year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

The government-wide financial statements distinguish governmental activities of the County that are principally supported by property and sales taxes and from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, judicial, public safety, public works, health and welfare, culture and housing and development. The business-type activities include the commercial collection of waste, area transit and the group health insurance fund.

The government-wide financial statements are presented on pages 15 & 16 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

The County has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the County's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 17-20 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements in a later section of this report.

The *proprietary funds* are reported in the fund financial statements and include a statement of net assets, an operating statement and a cash flow statement. These statements are presented on pages 21-23 of this report.

The fiduciary funds are reported in the fund financial statements and include a comparative statement of assets for its agency funds. This statement is presented on page 24.

Notes to the Basic Financial Statements

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the basic financial statements begin on page 27 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budget presentations. Budgetary comparison statements are included as "required supplementary information" for the general fund and the emergency services fund. This information is presented on pages 51-54.

Other Supplementary Information

This section includes budgetary comparison schedules for all other governmental funds. These statements and schedules demonstrate compliance with the County's adopted and final revised budget. As discussed, the County reports major funds in the basic financial statements. Combining and individual comparative statements and schedules for some major funds and the nonmajor funds are presented in this section of this report beginning on page 55.

Financial Analysis of the County as a Whole

The County's net assets at calendar year-end are \$82,432,900. The following table provides a summary of the County's net assets:

Summary of Net Assets

The County maintains a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities is 6.6 to 1 which compares favorably to 3.8 to 1 at December 31, 2009. The business-type activities current ratio is 8.9 to 1 as compared 2.3 to 1 at December 31, 2009. Overall, the total current ratio at December 31, 2010 is 6.6 to 1 as compared to 3.7 to 1 at December 31, 2009.

Note that in the above table, the interfund payable between due from the business-type activities to the governmental activities is not eliminated.

The County reported positive balances in net assets for governmental activities. Net assets increased \$5,237,105 in 2010 governmental activities or 6.9% over the 2009 amount. The net assets for business-type activities increased \$124,106 or 16.5%. The County's overall financial position increased during calendar year 2010 by \$5,361,211 or 7%. These increases are considered positive financial indicators.

Note that 78.8% of the governmental activities' net assets are tied up in capital assets compared to 84% at December 31, 2009. The County uses these capital assets to provide services to its citizens.

The following chart reports the County's total net asset balances from calendar year 2003 - 2010.

Note that the primary increase in total net assets in 2006 relates to the initial reporting of infrastructure retroactively.

(This page continued on the subsequent page)

GOVERNMENTAL REVENUES

The County is heavily reliant on property taxes to support governmental operations. Property taxes provided approximately \$15 million or 42.2% of the County's total governmental revenues as compared to 41.5% in 2009. This increase relates to substantial growth in the tax digest due to a revaluation. Sales taxes are the second largest revenue source with over \$7.1 million of revenues or 20.1% as compared to 30.2% in 2009.

Because of the County's financial position, we have been able to earn over \$129,244 in unrestricted interest earnings to support governmental activities. Also, note that program revenue covers 24.4% of governmental operating expenses compared to the same 26.9% in 2009.

This means that the government's taxpayers and the County's other general governmental revenues fund 75.6% of the governmental activities. As a result, the general economy and the County businesses have a major impact on the County's revenue streams.

GOVERNMENTAL FUNCTIONAL EXPENSES

The public safety and the public works functions make up approximately 73% of the total governmental activities expenses as compared 73.9% in 2009. General government totals over \$3.7million and the court system costs the County over \$2.1 million annually.

This table presents the cost of each of the County's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that was placed on the County's taxpayers by each of these functions.

After reducing gross expenses by program revenues, public safety totals 41.3% of the net cost of services and public works totals only 30.9% of these costs. The primary revenue streams that reduced gross revenues were charges for services, capital contributions and capital grants.

Business-Type Activities

The County operates an area transit fund providing transportation services to the County's residents. In 2010, this fund reporting an operating loss of \$156,693 compared to an operating loss of \$217,445 in calendar 2009. Charges for services decreased \$28,173 or 3.3% primarily due to fewer trips resulting from:

- Stopped providing transportation for the "Kids First Program"
- Fewer DFCS clients being transported
- State of Georgia budget cuts forced DFCS to use their own vehicles, therefore less contract transportation

Operating expenses decreased \$91,115 or 8.4%. Personal services costs decreased \$73,967 or 11.3%. This decrease relates to a \$30,000 general fund allocation to personal services in 2009, which did not occur in 2010 and less routes, resulting less overtime costs.

Purchased services decreased \$28,153 or 28.9%. \$21,000 of this decrease relates to a reduction in the countywide insurance allocation. Supply costs increased \$31,382 or 14.6% due to fuel costs increases. Depreciation expense decreased \$20,377 or 17.5% due to a reduction in the fleet size.

This fund received a capital contribution of three vans, valued at \$154,800, from Federal grant and passed through the Georgia Department of Transportation.

The unrestricted net assets report \$785,541 as compared to a balance of \$666,901 at December 31, 2009 or an \$118,640 increase.

Financial Analysis of the County's Funds

Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$16,320,075.

Of this year-end total, \$9,580,995 is unreserved indicating availability for continuing County service requirements. Legally restricted fund balances (i.e., the reserved fund balances) include: \$435,861 committed to assets not available for current expenditure, \$986,061 set aside for specific program purposes and over \$5.3 million committed to capital projects.

The total ending fund balances of governmental funds show an increase of \$5,569,009 or 51.8% from the prior year amount, primarily due to the collection of sales taxes from the 2006 tax authorization that was not expended in calendar year 2010.

Major Governmental Funds

The General Fund - The general fund is the County's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance increased \$2,018,285 or 37.2%. In 2009, the general fund's fund balance increased \$1,934,993 or 55.5%. In spite of the poor economy, the County has been improving their financial position over the last few years.

Current property taxes decreased \$376,582 or 3.6% below calendar year 2009 amount. The amount of deferred revenue increased \$138,000 resulting in lesser property taxes revenue. In addition, the allowance for uncollectibles increased which decreased property tax revenue.

Interest and penalties on property taxes increased \$70,553 or 30.7% over the 2009 amount. This increased relates to past due property taxes being collected in 2010. In 2010, the sheriff served a number of FIFA's and sold the property rights for unpaid taxes, both of which increased tax collections and related interest and penalties on delinquent collections.

General fund local option sales taxes were increased just \$56,772 over the 2009 amount. However, this may be a sign of a slightly recovering economy.

Building and sign permits are down \$46,169 or 30% from 2009 due to the above mentioned economy slowdown and a moratorium on new County subdivisions in the latter part of 2009, which carried forward to 2010. Local grants increased \$474,892 due to the late receipt of the County's share of the City of Thomasville's landfill payments received in 2010, for 2008 and 2009.

In total, charges for service increased \$768,390. Charges for streets and public improvements increased \$114,184 over 2009. This increase relates to replacing the culverts on Hall Road, of which the State of Georgia reimbursed the County \$98,805.

Charges for services relating to reimbursements increased \$625,155 or 103.6%. \$483,678 of this increase relates to receipts from the County Health Department. The Health Department returns its excess revenues to the County and in 2010; the

County received excess funds for 2008, 2009 and 2010. In addition, the SPLOST reimbursed the general fund for various authorized road projects. The 2010 reimbursement exceeded the 2009 amount by \$116,999.

Most other revenue streams were similar to the 2009 amounts.

Some of the more notable changes in expenditures from 2010 follow.

The general government function costs were up \$232,505 from 2009. However, this difference relates to various increases and decreases:

- Election costs were up \$71,652. The purchased services included in this amount increased \$34,921 due to contract labor needed for the 2010 elections.
- Purchased services costs for the tax assessor were up \$64,334 or 131% over 2009. In 2010, auditors were hired to audit personal property tax returns, which resulted in the increased costs.
- Buildings and plant supply costs were up \$65,443 or 13.4% over 2009 due to the purchased of some air conditioning units and a full year of costs for the new judicial building.

Total sheriff costs were up \$199,357 over the 2009 amount. This increase relates to capital outlay costs for the purchased of eight patrol cars, however, none were purchased in 2009. Purchased service costs for the jail decreased \$45,960 or 20.1% from 2009. In 2010, the Sheriff initiated a new inmate medical care program with Blue Cross/Blue Shield, which resulted in a cost savings to the County. For jail operations in 2010, the County upgraded the control panels for the jail doors, costing approximately \$70,000.

As indicated, the general fund's ending unreserved fund balance increased \$2,020,143 or 41.3% from the prior year. The unreserved fund balance (i.e. the amount available for future spending), and is considered adequate, representing the equivalent of 36.4% of annual expenditures, up from 26.4% at December 31, 2009.

The Emergency Services Fund –The emergency services fund reported net increase in fund balance of \$374,847 from the prior year. Property taxes make up 65.8% of revenues and charges for services are 32.1% of revenues. In 2010, total revenues were down \$118,940 or 2.9%, primarily because of property taxes (\$71,301) and charges for services (\$45,077).

This year, the fund transferred \$656,500 to the E-911 fund or less than anticipated. The total fund balance at December 31, 2010 is \$2,676,564 or approximately 92.5% of annual expenditures.

The 2000 SPLOST Fund – This fund spent \$834,592 on roads, bridges and equipment during 2010 and reports a fund balance at December 31, 2010 of \$58,931, which the County will spend on future capital projects.

County-wide 2006 SPLOST Fund – This fund collected almost \$7.1 million in special purpose local option sales taxes. Of this amount, \$4.8 million was transferred to the County's 2006 SPLOST fund and an additional \$2.3 million paid to other County cities. At December 31, 2010, there is no remaining fund balance.

2006 SPLOST Fund – This fund recognized the transfer from the 2006 SPLOST fund referenced above and expended approximately \$596,811 on capital projects. This fund also paid the Thomas County Public Library System \$166,656 for capital construction. The fund balance at December 31, 2010 is \$5,138,225.

Proprietary Fund

Since the County reports only a single major enterprise fund, the financial analysis is presented above for this fund.

Budgetary Highlights

The General Fund – The County amended the revenue budget by \$103,305 or approximately 1/2 of 1%.

Taxes on motor vehicles were \$96,092 or 13.7% below the final budget. This difference relates to an over optimistic budget as new car sales are less than anticipated, which affects the amount of the taxes. Interest and penalties were over the final budget by \$100,238 as explained above.

The local option sales taxes were \$146,624 below the final budget due to the slowing economy and an optimistic revenue projection for this revenue stream. Building and sign permits were \$92,038 below the final budget due to less construction due to the poor economy.

Local intergovernmental revenues were over the budget by \$466,529, as explained above (i.e., the City of Thomasville landfill payments).

Reimbursements included in other charges for services exceeded their budget by \$755,121, as explained above (i.e., Health Department reimbursements).

In total, the County realized 106% of the estimated revenues.

The total expenditure budget was under spent by \$650,479 or 3.3%.

Sheriff personnel costs were \$39,823 over budget. The personal costs for criminal investigations were below budget since one budgeted employee is serving in Afghanistan as part of the military reserves.

Public works purchased services were \$133,114 below the final budget and supplies were \$73,331 below the final budget because of the delaying of projections. The capital outlay budget for public works of \$172,200 for the culverts for Hall Road, but these costs were ultimately charged to other road projects.

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets, net of accumulated depreciation, for governmental activities as of December 31, 2010, was \$64,676,619 as compared to an amount of \$64,609,369 at December 31, 2009. The business-type activities reported a book value of \$484,735. The total increase in the net investment in capital assets was \$40,848. See Note 3-E for additional information about changes in capital assets during the calendar year and outstanding at the end of the year.

At December 31, 2010, the depreciable capital assets for governmental activities were 34% depreciated, or slightly above the 2009 percentage of 32%. This comparison indicates that the County is replacing its assets at about the same rate as they are depreciating which is a positive indicator.

Long-term Debt

At the end of the calendar year, for governmental activities, the County had two notes payable due to a local bank totaling \$446,850. These notes will be retired in 2014. In addition, the County reported a total long-term portion of unused vacation totaling \$123,717.

Economic Conditions Affecting the County

Thomas County is part of the 14-county Southwest Georgia Regional Commission (SWGRC) and is located approximately 45 miles from Tallahassee (Interstate 10) with its national airport, and 60 miles from Valdosta, Georgia (Interstate 75). Incorporated areas include Thomasville (population 18,000), Barwick, Boston, Coolidge, Meigs, Ochlocknee, and Pavo (with populations ranging from 300 to 1,500 each). The County's population is currently estimated at 46,188.

Thomas County is one of about 3,141 counties and county equivalents in the United States. It has 548.4 sq. miles and a population density of 78 per square miles. In the last three decades of the 1900's its population grew by 23%. 2009 estimates the largest minority population was African-American listed at 36.9%.

The unemployment rate for May 2011 was 8.4%, with about 17% of the population living below the poverty level. Employed civilians totaling 22,608, are classified as follows:

- Goods producing 20.4%
- Service producing 62.4%
- Government 17.1%

Top ten County employers in 2010 are listed below:

- Archbold Hospital 2,622
- Southwestern State Hospital 820
- Thomas County Schools 779
- Flowers Baking Company 715
- Thomasville City Schools 417
- Thomas County Government 330
- Wal-Mart 307
- Hurst Boiler 235
- Oil Dri 232
- Siemens 215

The medium family income in 2009 was \$37,581 compared to the state average of \$50,834. The Georgia Department of Community Affairs lists the County's total retail sales at \$450 million.

As referenced above, the nationwide recession has affected our County as well. In an effort to offset this negative economic impact, in the 2010 budget, the County did not increase employee wages or benefits. Capital outlay purchases have been reduced to about 25% pre-recession levels.

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Government-wide Statement of Activities
For the Year Ended December 31, 2010*

Net Changes In Fund Balances - Total Governmental Funds \$ 5,584,009

Amounts reported for governmental activities in the
statement of activities are different because

Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.

Depreciation expense	\$ (2,347,221)	
Capital outlay	2,432,063	
Miscellaneous capital asset adjustment	<u>2,503</u>	87,345

Capital assets contributed are not reported at the fund financial reporting level but are reported on the government-wide financial reporting level. 41,683

The book value of capital assets sold are reported on the government-wide statement of activities but not reported in the governmental fund's operating statement less book value of traded-in asset capitalized. (61,778)

The increase in pension assets are reported on the government-wide statement of activities but not at the governmental fund's operating statement.

Balance @ 12/31/10	\$ 262,136	
Balance @ 12/31/09	<u>(215,561)</u>	46,575

Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues at the fund financial reporting level.

Property taxes:		
Deferred @ 12/31/10	\$ 1,221,500	
Deferred @ 12/31/09	<u>(1,017,500)</u>	204,000

Impact fees:		
Deferred @ 12/31/10	\$ 20,914	
Deferred @ 12/31/09	<u>(31,371)</u>	(10,457)

Intergovernmental revenue:		
Deferred @ 12/31/10	\$ -	
Deferred @ 12/31/09	<u>(270,990)</u>	(270,990)

Charges for services		
Deferred @ 12/31/10	\$ -	
Deferred @ 12/31/09	<u>(352,752)</u>	(352,752)

The decrease in fund balances reserve for inventory is subtracted directly from the fund balances at the fund level but expenses are increased at the government-wide level (15,000)

Transfers between governmental funds are reported in the governmental funds operating statement but are eliminated on the government-wide statement of activities:

Transfers in	\$ (5,453,253)	
Transfers out	<u>5,453,253</u>	-

The issuance of long-term debt is reported as an other financing source at the fund financial reporting level but reclassified as a liability at the government-wide financial reporting level. (85,000)

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. 115,929

Accrued interest is reported in the statement of activities, but does not require the use of financial resources and therefore are not reported as expenditures in governmental funds.

Liability @ 12/31/10	\$ (15,744)	
Liability @ 12/31/09	<u>19,270</u>	3,526

Compensated absences reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Liability @ 12/31/10	\$ (483,567)	
Liability @ 12/31/09	<u>433,582</u>	(49,985)

Change In Net Assets of Governmental Activities \$ 5,237,105

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Thomas County, Georgia (the County) is a political subdivision of the State of Georgia and was formed in 1825. The County operates under a Commission-Manager form of government and is governed by an eight member elected board of county commissioners, which is governed, by state statutes and regulations. There are certain elected officials whose operations are wholly included within the financial records and financial statements of the County. These elected officials include the Sheriff, Tax Commissioner, Probate Court Judge, Magistrate Court Judge and Clerk of the Superior Court. The County's major services include general government, courts, public safety, public works, health and welfare, culture and recreation and housing and development.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the County have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The County also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities at the government-wide financial reporting level and to its enterprise funds, provided they do not conflict with or contradict GASB pronouncements. The County does not follow subsequent private-sector guidance.

The most significant of the County's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For the County, this entity includes the constitutionally elected officers.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organizations; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the County in that the County approves the budget, levies their taxes or issues their debt.

The component unit columns included on the government-wide financial statements identify the financial data of the County's discretely presented component units. They are reported separately to emphasize that they are legally separate from the County.

Brief descriptions of the discretely presented component units follow:

Thomas County Health Department (the Health Department) – The Health Department works to promote and preserve the health of the citizens of the County. The Health Department's Board consists of seven members, four of these members are appointed by the County Commission. Although the County does not have the authority to approve or modify the Health Department's budgets, it does have the ability to control the amount of funding it provides to the Health Department and such funding is significant to the overall operations of the Health Department. The Health Department is reported on a June 30, 2010 fiscal year. Complete financial statements for the Health Department may be obtained from its administrative office by calling 229/226-4241.

Emergency Services Agency (ESA) – The ESA is a separate entity created by the General Assembly when they passed local legislation, which the Governor signed on April 19, 1999. Its organizational structure prior to April 19, 1999 was an interlocal governmental pact between Thomas County, Georgia and the City of Thomasville, Georgia dated July 14, 1998. The ESA provides fire, ambulance and E911 services to the general citizenry of Thomasville and the County.

The ESA's Board has two members appointed by the County, two appointed by the City and these four appointed a fifth member. The City of Thomasville, Georgia transferred its emergency equipment to the ESA in 2000. Emergency equipment owned by the County was transferred to the ESA in 1999. The ESA is funded from property taxes levied by the County,

E911 telephone surcharges imposed by the County and service fees. Because the ESA is fiscally dependant on the County, provides services almost exclusively to citizens of the County and it would be misleading to exclude the ESA, the County has included the ESA as a discretely presented component unit in its financial statements. A copy of its audit report may be obtained from their office by calling the Thomas County Board of Commissioners at 229/225-4100.

In August 2002 the County Board of Commissioners initiated discussions with the City of Thomasville regarding the management structure of the ESA. Those discussions continued through October 2002. On October 17, 2002, at a work session, the Thomasville City Council concluded it could not agree to the management changes proposed by the County Board of Commissioners and recommended that the ESA be disbanded. The Board of Commissioners voted on October 21, 2002 to disband the ESA within 10 months as provided by the local legislation signed by the Governor on April 19, 1999. On January 1, 2003, the City assumed fire protection in Fire Districts 1 & 2 and the County assumed fire protection in Fire District 3. The County also assumed county-wide Emergency Medical Service and 911 services. On March 18, 2003 the Board of Commissioners and the City Council finalized the disbandment process with a joint agreement. It was also agreed that the ESA's Board would continue to function and resolve certain personnel and financial issues carried over.

Thomas County Public Library System (the Library System) – The Library System operates pursuant to Official Code of Georgia Annotated Sections 20-5-40 through 20-5-59. The Library System provides public library services with its costs shared by participation local governmental agencies and grants from the State of Georgia.

The Library System is governed by a nine member board, four members appointed by the Thomas County Board of Commissioners, three members appointed by the City of Thomasville and two members appointed by smaller towns located in the County. The Library Board is without authority to determine the amount of funding, except by submission of budget requests to local governmental units from which the Library System receives support and to the State of Georgia for state and federal flow through funding. Membership in the Library and participation in the library services is at the discretion of each participating governmental agency. The Library Board has the power to designate management, the power to retain unreserved fund balances of local and other funds for continued operations and is the lowest level of oversight responsibility in the Library System operations.

The Thomas County Board of Commissioners provides a substantial majority of funding for the operations of the Library System, consequently, the Library System is deemed to have a financial benefit/burden relationship with the County. Accordingly the Library System is considered to be a discretely presented component unit of the County. The Library System is reported on a June 30, 2010 fiscal year. Complete financial statements for the Library System may be obtained from its administrative office by calling 229/225-5252.

Related Organizations – The following are related organizations for which the County appoints one or more of the Board of Directors but they do not meet any other of the reporting entity criteria:

- Southwest Georgia Regional Commission
- Board of Family and Children's Service
- Board of Tax Assessors and Board of Equalization
- Southwest Georgia Regional Board for Mental Health, Mental Retardation and Substance Abuse
- Georgia Pines Community Service Board
- City of Thomasville Recreational Advisory Board

Joint Ventures – The County participates in the following two joint ventures.

Southwest Georgia Regional Commission (SWGRC) - The County, in conjunction with fourteen counties in the Southwest Georgia area are members of the SWGRC. Membership in an SWGRC is automatic for each municipality and county in the state. The Official Code of Georgia Section 50-8-34 (Georgia Planning Act of 1989) provides for the organizational structure of the SWGRCs. Each county and municipality in the state is required by law to pay minimum annual dues to the SWGRC. The SWGRC Board membership includes the chief elected official of each county and the chief elected official of each municipality. The county board members and municipal board members from the same county elect one member of the Board who is a resident (but not an elected or appointed official or employee of the county or municipality) to serve as the non-public Board member from a county. Separately issued financial statements are available at the SWGRC's administrative office, 30 West Broad Street, Camilla, Ga. 31730, or by calling 229/522-3552.

The Georgia Planning Act of 1989 (O.C.G.A. 50-8-34) defines SWGRCs as "public agencies and instrumentalities of their members. Georgia laws also provide that the member governments are liable for any debts or obligations of an SWGRC beyond its resources (O.C.G.A. 50-8-39.1).

Solid Waste - The County and the City of Thomasville joined together to operate a solid waste disposal and recycling facility for the mutual benefits of both governments. The initial agreement was dated 1973 but was amended by both parties on January 1, 1997 and March 25, 2002. The City of Thomasville holds all regulatory permits and is responsible for the construction and daily operations of the facility. The County owns the 485 acres of land on which these facilities are located. The City of Thomasville is required to maintain a separate fund for the landfill and recycling facility. All money generated by the solid waste and recycling facility shall be maintained in a separate bank account by the City of Thomasville.

At the conclusion of the City of Thomasville's annual audit, a determination will be made of excess cash and cash equivalents on hand. Excess cash and cash equivalents are defined as cash in excess of the amount needed for two months of next year's operating budget, one half of next year's capital budget, accrued closure and post closure care cost and reserves for future landfill expansion. After the determination of the excess cash and cash equivalents is made, the City's Mayor and the County Commission's Chairman shall meet and determine how the excess cash and cash equivalents are to be distributed. Should the determination of excess cash and cash equivalents indicate a shortfall of cash, the short fall will be funded through loans to be repaid by the landfill's revenue.

Complete financial statements for the City of Thomasville, Georgia may be obtained at their administrative offices by calling 229/227-7027.

Related Agency – The Thomas County Narcotics Division is 50% funded by the City of Thomasville. The County's Board of Commissioners approve and fund its budget within the general fund. Most of the employees are County employees and report directly to the Sheriff. The Narcotic Task Force monitors the narcotics division and shares information with the division commander. This task force is made up of the following members:

- Board of Commissioners Chairman
- County Manager
- Sheriff
- Mayor of Thomasville
- Thomasville City Manager
- Thomasville Police Chief
- District Attorney

1-B. Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Government-wide Financial Statements - The government-wide financial statements include the statement of net assets and the statement of activities. These statements report financial information for the County as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government. Fiduciary funds are not presented in the government-wide financial statements.

The statement of net assets presents the financial position of the governmental activities of the County and its discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the County's governmental activities and for each identifiable activity of the business-type activities of the County. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The County does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the County's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which function the revenues are *restricted*.

Other revenue sources not properly included with program revenues are reported as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements - During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. Fund financial statements are provided for governmental, proprietary and fiduciary funds.

Major individual governmental funds are reported in separate columns.

Fund Accounting - The County uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The County uses three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Government funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The County reports the difference between governmental fund assets and liabilities as fund balance. The following are the County's major governmental funds:

The General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund's fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of the State of Georgia.

Emergency Services Fund - This fund accounts for revenues and expenditures related to providing certain county-wide emergency services. These services include emergency medical services, emergency rescue, emergency management, emergency services administration and also funds operating deficits in the E-911 fund.

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

2000 SPLOST Fund – This fund accounts for the special purpose local option sales tax, as authorized in 2000, that is to be used for road projects. Although this fund does not meet the major fund criteria, the County has chosen to report this fund as a major fund.

2006 SPLOST Fund – This fund accounts for the special purpose local option sales tax that is transferred in from the county-wide 2006 SPLOST fund to be used primarily for the construction of a new judicial building, the remodeling of the courthouse, and a new roof for the jail justice center and road projects.

County-wide 2006 SPLOST Fund - This fund accounts for the 2006 special purpose local option sales tax collections and then the County's share is transferred to the County's 2006 SPLOST fund and the remaining balance is transferred to cities located within the County, for their share.

Proprietary Funds – The proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Two of the proprietary funds are classified as enterprise funds and the other proprietary fund is an internal service fund, which accounts for the County's group health plan. The major enterprise fund is defined as follows:

Area Transit Fund - This fund provides transit services to the County residents. Although this fund does not meet the major fund criteria, the County has chosen to report this fund as a major fund.

Fiduciary Funds – Fiduciary fund reporting focuses on assets and liabilities. The County's fiduciary funds are all agency funds.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared.

Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, the proprietary fund type is accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net assets. The statements of changes in fund net assets present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis of accounting. The proprietary fund uses the accrual basis of accounting at both reporting levels. Fiduciary funds are reported on the accrual basis at the fund reporting level. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Revenues – Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, the phrase “available for exchange transactions” means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (Note 3-D). Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, franchise taxes, charges for services and federal and state grants.

Deferred/Unearned Revenue - Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as deferred revenue.

Deferred revenue is reclassified as “*unearned revenue*” on the government-wide statement of net assets.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. Assets, Liabilities and Fund Equity

1-E-1 Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the County. Time deposits are classified as cash and cash equivalent without regard to maturity date.

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the County to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or Government agency
- Obligations of any corporation of the United States Government
- Prime bankers’ acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)

Note 1 - Summary of Significant Accounting Policies (Continued)

- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable.

1-E-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental activities column of the statement of net assets.

1-E-4 Consumable Inventories

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds are stated at cost. Cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased (i.e., the purchases method). At year-end, fund balance is reserved for a like amount of inventory on hand.

1-E-5 Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2010, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reserved, as this amount is not available for general appropriation.

1-E-6 Restricted Assets

Certain items are classified as restricted in the general fund because their use has been restricted by the Board of Commissioners or grant contracts.

1-E-7 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide statement of net assets but does not report these assets in the government fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of five thousand dollars. The County's infrastructure consists of roads and bridges. The County's infrastructure has been reported retroactively in 2007. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement.

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Governmental Activities Estimated Lives	Capitalization Threshold
Primary Government:		
Buildings and improvements	70 - 75 Years	\$50,000
Machinery and equipment	3 - 12 Years	\$5,000
Infrastructure	20 - 50 Years	\$250,000
Component Unit:		
Machinery and equipment	5 - 7 Years	\$5,000

At the inception of capital leases at the governmental fund reporting level, expenditures and an “other financing source” of an equal amount are reported at the net present value of future minimum lease payments.

1-E-8 Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the County's past experience of making termination payments.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Governmental funds report the compensated absence liability at the fund reporting level only “when due.”

1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are “due for payment” during the current year. Notes are recognized as a liability in the governmental fund financial statements when due.

1-E-10 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net assets.”

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. The County reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available, spendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Designations are management's intent to set aside these resources for specific services.

Net Assets - Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. This net asset amount also is adjusted by any bond issuance deferral amounts. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net assets are reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

1-E-11 Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise and internal service funds. For the County, these revenues are charges for services for waste collection, transit services and health insurance program. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund. Nonoperating revenues are investment earnings and operating grants. Nonoperating expenses include the loss on the disposition of capital assets.

1-E-12 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and the after non-operating revenues/expenses section in the proprietary fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between funds reported in the governmental activities column are eliminated.

1-E-13 Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-14 Comparative Data

Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

Note 2 – Stewardship, Compliance and Accountability

2-A. Budgetary Information – The County adopts an annual operating budget for all governmental funds except the capital projects funds, which have an adopted project budget. The budget resolution reflects the total of each department's appropriation in each fund.

Budgets are adopted on a basis consistent with GAAP with the exception of the capital projects funds, which have project length budgets, rather than annual budgets.

Thomas County, Georgia
Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 2 – Stewardship, Compliance and Accountability (Continued)

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level within each individual fund. Any change in total to a fund or departmental appropriation within a fund requires approval of the Board of County Commissioners. The Board of County Commissioners also must approve budget transfers within departments.

The original 2010 budget was amended during the year. All unexpended annual appropriations lapse at year-end.

2-B. Excess of Expenditures over Appropriations

The following departments overspent the final amended 2010 annual budget:

General fund:	
Tax commissioner	\$ 1,038
Tax assessor	17,997
Clerk of the superior court	4,311
Probate court	998
Sheriff	22,897
Jail Operations	9,309

Note 3 - Detailed Notes on All Funds

3-A. Deposits

Deposits – The County's cash and investment policy limits deposits to demand and money market accounts, and time deposits at local banks. The County's deposits shall be secured by Federal Depositary Insurance Corporation (FDIC) coverage and/or bank pledges. State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

Note 3 - Detailed Notes on All Funds (Continued)

Custodial Credit Risk – Deposits – The custodial credit risk for deposits is the risk that, in the event of a bank failure, the County’s deposits may not be recovered.

As of December 31, 2010, all of the County’s deposits were covered either by FDIC coverage or collateralized with securities held by the County’s agent in the County’s name.

Also, the Thomas County Emergency Services Agency’s deposits, the Thomas County Health Department’s deposits and the Thomas County Public Library System’s deposits were covered either by FDIC coverage or were entirely insured or collateralized with securities held by the component unit’s agent in the component unit’s name.

3-B. Receivables

Receivables at December 31, 2010, consisted of taxes, accounts (billings for user charges) and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the County’s financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility.

The allowances for uncollectibles are as follows:

- General fund - \$141,597
- Emergency services fund - \$14,000
- Fire district 1 & 2 fund - \$3,600
- Fire district 3 fund - \$2,600
- Commercial collection fund - \$1,734

3-C. Restricted Assets

Restricted assets reported in the general fund are comprised of the following:

Prison store account – (\$8,262) – these monies belong to the inmates who use it to make purchases in the prison store.

Capital improvements – (\$120,003) – these resources will be used for maintenance and improvements on County buildings.

3-D. Property Taxes

The Board of Commissioners levy property taxes by or about September of each year. Property taxes attach as an enforceable lien on property as of January 1. The property taxes were levied on July 30, 2010. Property taxes were billed on August 27, 2010 and are due upon receipt, however, the actual due date was November 15, 2010.

3-F. Interfund Balances and Transfers

Interfund Balances - Interfund balances at December 31, 2010, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made.

The following table includes the interfund receivables and payables at December 31, 2010:

Payable to:	Payable from:					Total
	Emergency services fund	County-wide 2006 SPLOST fund	Nonmajor governmental funds	Area transit fund	Internal service fund	
General fund	\$ 14,423	\$ -	\$ 76,523	\$ -	\$ 223,566	\$ 314,512
Emergency services fund	-	-	45,320	-	-	45,320
2006 SPLOST fund	-	835,821	-	-	-	835,821
Nonmajor governmental fund	11,250	-	-	-	-	11,250
Internal service fund	243,200	-	261,722	18,491	-	523,413

The County expects to repay all interfund balances within one year with the exception of the amounts due to the health group fund (\$523,413) as County management does not anticipate repaying the cash during 2011. Also, the fire district 1 & 2 fund will not have available cash to repay the amount owed to the emergency services fund (\$45,320) during 2010 and fire district 3 fund will not have available cash to repay the amount owed to the general fund (\$13,864) during 2010.

The following table includes \$136,132 collected by agency funds and due to various governmental funds that have been eliminated at both financial reporting levels.

Interfund Transfers - Interfund transfers for the year ended December 31, 2010, consisted of the following:

Transfers to	Transfers From		Total
	Emergency services fund	County-wide 2006 SPLOST fund	
2006 SPLOST fund	\$ -	\$ 4,796,753	\$ 4,796,753
Nonmajor governmental funds	656,500	-	656,500
Total	\$ 656,500	\$ 4,796,753	\$ 5,453,253

The transfer from the county-wide 2006 SPLOST fund to the 2006 SPLOST fund is the County's share of the special purpose local option sales taxes, as authorized in 2006. The transfer from the emergency services fund to the E-911 fund is to cover the E-911 fund deficit as the telephone surcharge is not adequate to balance this fund.

3-G. Short-Term Debt

On February 12, 2010 the County Board of Commissioners voted to borrow \$2,700,000 for general fund cash flow purposes through the issuance of a tax anticipation note at an interest rate of 2.1%, due December 31, 2010. The County retired this note on November 23, 2010 with interest paid of \$44,730.

3-I. Pension

Plan Description – The County participates in the Association of Government Commissioners of Georgia Pension Plan (ACCG Plan), an agent multiple-employer defined benefit pension plan, which covers all employees. The County Board of County Commissioners authorizes amendments, participation in the pension plan, establishes the pension benefits and sets the contribution rates. All full-time eligible employees participate in the ACCG Plan (“Plan”) after completing three years of service.

Participants become eligible to retire at age 65 with three years of participation in the Plan. Benefits vest after five years of service. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 1.0% of average annual compensation up to \$6,600 plus 1.5% of average annual compensation in excess of \$6,600 plus \$36 for each year of service payable as a life annuity. Compensation is averaged over a five year period prior to retirement or termination.

Sand Site Lease - In May 2006, the County entered into an operating lease with W. Marcus Collier, for the purpose of prospecting, exploring, drilling, removing and mining for sand. The initial lease term was May 1, 2006 – April 30, 2007. The lease amount is one-dollar plus royalty payments of fifty cents per cubic yard removed. The initial site includes approximately 1633 cubic yards.

The County exercised an option in 2006 by paying \$60,000 to extend the contract August 20, 2021. The option includes the use of approximately 15 acres for the same purpose as above. The lease option includes royalty payments of fifty cents per cubic yard of sand removed.

Note 4 - Other Notes

4-A. Risk Management

Interlocal Risk Management Agency - The County is exposed to various risks of losses related to torts, thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has joined together with other counties in the state as part of the Interlocal Risk Management Agency (IRMA) for property and liability insurance and the ACCG-Group Self-Insurance Workers' Compensation Fund (WCSIF), public entity risk pools currently operating as common risk management and insurance programs for member local governments. The Association County Commissioners of Georgia (ACCG) administers both risk pools.

As part of these risks pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pools' agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pools' agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member governments' contracts and in accordance with the workers' compensation laws of Georgia. The funds are to pay all cost taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Notes to the Basic Financial Statements
For the Year Ended December 31, 2010

Note 4 - Other Notes (Continued)

The County has not compiled a record of the claims paid up to the applicable deductible for the prior or current fiscal year. The County is not aware of any claims, which the County is liable for (up to the applicable deductible) which were outstanding and unpaid at December 31, 2010. No provision has been made in the financial statements for the year ended December 31, 2010, for any estimate of potential unpaid claims.

The County carries a combined property, casualty, and crime coverage with the Association County Commissioners of Georgia - Interlocal Risk Management Agency (IRMA).

Coverages are as follows:

Property Coverage Description	Building & Contents - Section IA Per Schedule on File Automobile Physical - Damage - Section IB Per Schedule on File
Casualty Coverage Description	General Liability - Section II \$1,000,000 Law Enforcement Liability – Section III \$1,000,000 Automobile Liability – Section IV \$1,000,000 Errors & Omissions Liability - Section V \$1,000,000
Crime Coverage	Money & Securities: Within Premises - Section VIA \$150,000 Outside Premises - Section VIB \$150,000 Blanket Employee Dishonesty - Section VIC \$50,000 Statutory Bonds – Section VID As required Forgery and Alteration - Section VI \$150,000 Computer Theft and Funds Transfer Fraud – Section VIF \$150,000 Money Orders and Counterfeit Currency - Section VIG \$150,000
Deductible	All coverages are subject to a per occurrence deductible of \$10,000

Coverage is subject to all terms, conditions, and internal limits as specified in ACCG-IRMA Coverage Agreement.

Self-insurance Program - Effective September 1, 1995 the County began a self-insurance program for medical claims. The purpose of the program is to pay medical claims for County employees and their covered dependents and to minimize the total cost of medical insurance to the County. The County purchases stop loss insurance in order to limit their risk management cost.

The self-insurance program was accounted for in the General Fund until January 1, 2000. At that time the County began accounting for the self-insurance program in an internal service fund on the cost reimbursement method.

The following represents the changes in approximate liabilities for the County from January 1, 2008 to December 31, 2010:

December 31,	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Fiscal Year Liability
2008	\$ 308,000	\$ 2,279,941	\$ 2,241,941	\$ 346,000
2009	346,000	2,519,482	2,325,482	540,000
2010	540,000	2,322,707	2,395,707	467,000

There were no significant reductions in insurance coverage from prior year, and there have been no settlements that exceed the County's insurance coverage during the past three years.

Note 4 - Detailed Notes on All Funds (Continued)

4-B. Contingent Liabilities

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the County believes such disallowances, if any, will be immaterial.

The County was a defendant in several lawsuits at December 31, 2010. In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County.

4-C. Hotel/Motel Lodging Tax

Pursuant to an ordinance approved on June 27, 2005, January 1, 2006 the County began levying a 5% lodging tax in accordance with O.C.G.A. 48-13-51 and expends 50% of the hotel/motel tax collections for the purpose of promoting tourism.

A summary of the transactions for the year ended December 31, 2010 follows:

Lodging tax receipts	<u>\$ 115,040</u>
Disbursements to:	
Destination Thomasville Tourism Authority	\$ 48,875
Thomas County Tourism	17,848
Passed down to others (local governments in Thomas County)	<u>53,420</u>
Total disbursements	<u>\$ 120,143</u>

4-D. Special Item

Beginning in calendar year 2007, the County (through the general fund) began charging an administrative fee of \$35,000 per year to the area transit fund. The total fee unpaid at December 31, 2009 was \$105,000. During calendar year 2010, it was determined that charging an administrative fee was not consistent with federal guidelines, as a result, the County has eliminated the interfund items, reporting the elimination as a special item.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Chairman and Members
of the Board of County Commissioners
Thomas County, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Thomas County, Georgia, as of and for the year ended December 31, 2010, which collectively comprise Thomas County, Georgia's basic financial statements and have issued our report thereon dated July 29, 2011. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of Thomas County Public Health, as described in our report on Thomas County, Georgia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Thomas County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Thomas County, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Thomas County, Georgia's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Thomas County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standard* and which is described in the accompanying schedule of findings and questioned cost as item 2010-1.

Thomas County, Georgia's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned cost. We did not audit Thomas County, Georgia's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, Board of Commissioners, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Chairman and Members
of the Board of Commissioners
Thomas County, Georgia

We have audited Thomas County, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Thomas County, Georgia's major federal programs for the year ended December 31, 2010. Thomas County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Thomas County, Georgia's management. Our responsibility is to express an opinion on Thomas County, Georgia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Thomas County, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Thomas County, Georgia's compliance with those requirements.

In our opinion, Thomas County, Georgia, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010.

Internal Control over Compliance

Management of Thomas County, Georgia, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Thomas County, Georgia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Thomas County, Georgia's internal control over compliance. A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Thomas County, Georgia's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Thomas County, Georgia's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, Board of Commissioners, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULES OF SPECIAL PURPOSE LOCAL OPTION SALES TAX

Honorable Chairman and Members
of the Board of County Commissioners
Thomas County, Georgia

We have audited the accompanying Schedules of Special Purpose Local Option Sales Tax for Thomas County, Georgia for the year ended December 31, 2010. These schedules are the responsibility of Thomas County, Georgia's management. Our responsibility is to express an opinion on the Schedules of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedules of Special Purpose Local Option Sales Tax are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedules of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedules of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedules of Special Purpose Local Option Sales Tax are prepared for the purpose of complying with the Official Code of Georgia Annotated, 48-8-121 on the modified accrual basis of accounting as described in Note 1 and are not intended to be a complete presentation of Thomas County, Georgia's revenues and expenditures.

In our opinion, the Schedules of Special Purpose Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated cost, and the current and prior year expenditures for each project of Thomas County, Georgia for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT ON SCHEDULE OF SOURCE AND APPLICATION OF FUNDS AND SCHEDULE OF PROJECT COST APPLICABLE TO COMMUNITY DEVELOPMENT BLOCK GRANTS

We have audited the accompanying Schedules of Source and Application of Funds and Schedules of Project Costs as of December 31, 2010 and for the year then ended. These financial statements are the responsibility of Thomas County, Georgia's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Our audit was in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly the disposition and status of Thomas County, Georgia's Community Development Block Grant funds at December 31, 2010 for the year then ended in conformity with applicable financial reporting provisions of governmental regulations and accounting principles generally accepted in the United States of America.

This report covers Community Development Block Grant numbered 09p-y-136-1-5115 and 10p-y-136-1-5255.
